

# 516V Loudspeaking **Video Phone**

## 516V Loudspeaking Video Phone

The Entryphone 516V is a wall-mounted, full duplex, loud-speaking, colour video telephone. Featuring a 3.5" colour QVGA LCD screen and capacitive sense switches set behind a toughened glass lens. The 516V is fully compatible with Entryphone's 500 series 5-wire video range and has the same compact footprint as our standard 200\* and 500 series handsets and portrait PTS telephones

The 516V incorporates echo and noise cancelling software that allows full duplex hands-free audio.

This elegant, compact, yet unobtrusive telephone fits in anywhere and provides all the features available on our 500 series systems: remote door releases, 2nd camera switching, do-not-disturb mute and porter facility. An ideal choice for any development or system upgrade .
